RARE FREMONT INFILL DEVELOPMENT OPPORTUNITY

Prime vacant parcel in Fremont's Transit-Oriented Development corridor with approximately 100 feet of Peralta Boulevard frontage and a clean rectangular configuration.

Zoned General Commercial with TOD overlay, the site offers flexible development potential: up to 14 residential units, approximately 23,750 square feet of commercial space, or a mixed-use project combining density and FAR allowances.

Located near the Fremont/Centerville ACE Station with convenient access to I-880 and I-680, schools, retail, transit, and daily amenities, this site is well-positioned for developers seeking a high-visibility, transit-adjacent infill opportunity.

The underground storage tanks formerly on site have been removed. Following site investigation and corrective action, the San Francisco Bay Regional Water Quality Control Board issued No Further Action determinations in letters dated April 27, 2023 (File Nos. 01-2466 LKK and 01-2566 LKK).

SB 79 JUST CHANGED THE RULES

Effective July 1, 2026, California's SB 79 expands development opportunities for qualifying commercial properties located near major transit corridors by allowing higher-density residential and mixed-use projects through a streamlined by-right approval process. Properties within proximity to transit stations may now support significantly greater residential density, enhancing redevelopment potential and creating additional value for owners, investors, and developers throughout key Bay Area markets, including Alameda, San Francisco, San Mateo, and Santa Clara counties.

Developers are highly suggested to contact the City of Fremont for more information.
